The winner of each race will receive a trophy at our Presentation Evening.

An overall season winner will be calculated by adding together the points obtained from the **best four** races.

Dates this season:

1. Tues 17th April
2. Tues 15th May
3. Tues 19th June
4. Tues 17th July
5. Tues 21st August
6. Tues 4th September

Route: Greenwood 4 - signs will be put out to ensure no-one can get lost.

If you have not done the handicap race before please see Ron Reynolds **before** the race date so that he can provide you with a number and calculate your start time. He will base your handicap time on your parkrun 5k time, if you haven't done a parkrun and wish to take park please let Ron know your 5k time.

We do encourage all club members to take part in the handicap. Not only is it fun but it is good to have a challenge once a month and there are trophies to be won (see above)! There will be no official runs or effort sessions going on when the handicap race is on

Rules:

Runners start at different times, according to their handicap, with slower runners starting first and faster runners later – this ensures that if all run to form we will all finish at the same time. Therefore those who finish first will have exceeded expectations and the first to come home is the winner, with points awarded from 20 (first place) down to 1 (20th and successive places). This means that anyone, no matter how fast or slow, has a chance of winning.

Handicaps, and therefore starting positions, will change throughout the season, so if you are improving you will see your start time get later, whilst if you are struggling you will start earlier the next time.

On the evening you need to collect your number from Ron - this number will be your handicap number throughout the handicap races. When you finish the race you need to tell Ron (and/or whoever is helping him) the number and return the tag.
